

CHILDREN AND MULTI-MEDIA POLICY

NQS 1.1.3, 1.1.5 Version February 2018

Selected developmentally and age appropriate multi-media programs and other activities may be used on the Smartboard, TV or iPads/Tablets, that support the curriculum. With the assistance of Educators, children will have access to the internet as a research tool and to facilitate inquiry based learning. Educators will interact with children to prompt conversations, support their understanding and strengthen their skills and knowledge during these experiences.
