

BREASTFEEDING POLICY

Breastfeeding is important for infant's nutrition. Australian and international health authorities recommend exclusive breastfeeding until around 6 months. At around 6 months, solid food can then be offered while breastfeeding is continued until 12 months or longer if the mother and baby wish (NSW Ministry of Health, 2014, p. 10).

Our Service respects and supports mothers' wishes to continue to breastfeed, as we understand that returning to work is a common reason for discontinuing breastfeeding. We provide a welcoming environment for mothers to continue to breastfeed or express breastmilk.

All Educators understand their role and responsibilities to ensure the safe storage and handling of breastmilk and adhere to the feeding practices outlined by families.

PURPOSE

Our Service recognises the importance of breast milk for the developing infant and will ensure that all families are aware of our commitment to supporting mothers to continue to provide their child with breast milk whilst at the Service.

SCOPE

This policy applies to families, staff, management and visitors of the Service.

IMPLEMENTATION

An important function of breast milk is to provide the mother's antibodies to the infant, assisting in the prevention of illness whilst the immune system is developed. Mothers of infants up to 12 months old will be supported to continue to breastfeed, whether by providing expressed breast milk or visiting the Service to feed their child.

Management, Nominated Supervisor/ Responsible Person will ensure:

- Families are provided with breastfeeding information during enrolment and orientation.
- The Service is identified as '*Breastfeeding Friendly*' (see Resources section below).
- A quiet, clean, and comfortable place is provided for mothers to comfortably breastfeed or express breast milk.
- Easily accessible brochures, pamphlets and other resources about breastfeeding are available for families.
- Staff are aware that it is a mother's legal right to breastfeed.
- An individual breastfeeding support plan is developed in consultation with families, including contingency plans for if the Service does not have enough expressed breast milk to meet the child's needs.
- Literature on the benefits of breastfeeding is updated and distributed to staff as required to support understanding and 'best practice'.

Educators will:

- Provide mothers with a private, clean and quiet place to breastfeed their children or express milk.
- Store and handle expressed breast milk in accordance with the *Bottle Safety and Preparation Policy*.
- Establish and maintain connections with local Australian Breastfeeding Association breastfeeding support networks.
- Refer mothers with breastfeeding concerns to appropriate resources, including support services offered by Australian Breastfeeding Association groups (contact 1800 686 268) or private lactation consultants.

Families will:

- Be informed during orientation of requirements relating to labelling bottles of breast milk.
- Be informed of where they are able to breastfeed or express milk.
- Be encouraged to communicate regularly with Educators about children's bottle and feeding requirements.

Staff Training

Our Service will:

- Familiarise new staff with the breastfeeding policy and offer appropriate training as required, including alternate strategies for feeding if an infant will not accept a bottle.
- Ensure all staff that have responsibility for the care of infants and children are able to provide basic breastfeeding information and are able to refer mothers with breastfeeding concerns to appropriate resources.
- Ensure staff encourage parents to develop babies' individual breastfeeding support plans and regularly update their plans, with support from the Australian Breastfeeding Association group or private lactation consultants where appropriate.
- Ensure all staff promote exclusive breastfeeding until babies are about 6 months old with continued breastfeeding to one year, whilst showing due respect and support to mothers who cannot, or do not wish to breastfeed.

Support for Educators and Staff who are Breastfeeding

The Service will:

- Make all reasonable efforts to support a staff member's request to continue breastfeeding their child.
- Provide breastfeeding employees with a flexible schedule to allow for breastfeeding or expressing breast milk for their infant.
- Provide breastfeeding employees with a private, clean and quiet place to breastfeed their infant or express milk.
